“These paintings are explorations of modern subjects; supermarket treasures that are often used but perhaps seldom seen. The Target store brand of household products called “Method” was used as the starting point for composing most of the oil paintings in this exhibition; hence the name “latest Methods”. All of the works arise from my delight in the unexpected and kaleidoscopic shapes of transparent color found in such subjects when revealed in the wonder of light. I have seen these things.”

Special Thanks to:

Kirsten Olson, our most recent "temporary" staff member who has stepped up above and beyond the call of duty! She has kindly managed the front desk while volunteering most of her spare time to the improvements in the classroom space and clay areas. She has earned a permanent place in our CALC family. Please visit her ceramics display in the Member's Sales Gallery. www.kolsonceramics.com

And more shout-outs got to Erma Martin Yost, Kurt Brantner, Thom Bissey, and Tom Oakes for the extra energies they have devoted to our recent classroom improvements.

Our best wishes for a grand summer to Lea Zikmund, our Montgomery Service Leader Intern from Dickinson College. We look forward to seeing you in the Fall!
